Small Hydro Programme of IREDA

2127. SHRI LAKKHIRAM AGARWAL: Will the PRIME MINISTER be pleased to state:

(a) the details of the small hydro power programmes of Indian Renewable Energy Development Agency (IREDA) for the years 1997-98 and 1998-99 to be undertaken alongwith the details of projects, their sites and allocation likely to be made; and

(b) whether steps have been taken to effect economy in IREDA to reduce the non-paln expenditure to make hydro power cheap alongwith the economy in staff; if so, the details thereof?

THE MINISTER OF STATE IN THE MINISTRY OF RAILWAYS, MINISTER OF STATE IN THE MINISTRY OF PARLIAMENTARY AFFAIRS AND MINISTER OF STATE IN THE MINISTRY OF PLANNING AND PROGRAMME IMPLEMENTATION (SHRI RAM NAIK): (a) Indian Renewable Energy Development Agency (IREDA) is providing term loan assistance for setting up of small hydro power projects allotted by the State Governments to various developers. During 1997-98, IREDA has sanctioned loans

for 17 small hydro power projects with an aggregate capacity of 59.25 MW. The details are given in Statement-I (*See* below) 5 small hydro projects with an aggregate capacity of 24 MW have so far been sanctioned during 1998-99 against a target of 60 MW. Besides additional loans have also been sanctioned for 3 projects. The details are given in Statement-II.

(b) IREDA is only a financing institution. It does not implement any small hydro power project by itself. It only provides term loans to the developers of such projects and therefore, non-plan expenditure of IREDA does not have any relationship with the cost of hydro power. Therefore, the question of economy in IREDA to reduce the non-plan expenditure to make hydro power cheap, does not arise.
